

## Environmental statement

Phase Technology Ltd recognises the need for sustainable development and continually aims to improve the environmental effect of its activities. To achieve this, we will: -

Establish sound environmental management by: -

- Meeting or improving upon relevant legislative, regulatory and environmental codes of practice.
- Developing objectives that target environmental improvements and monitor performance by regular review.
- Considering any environmental issues in the decision-making process.
- Developing a relationship with suppliers and contractors so that we all recognise our environmental responsibilities.
- Educating employees so that they carry out their activities in an environmentally responsible manner.

Provide for the effective use of resources by: -

- Promoting waste minimisation by recycling or finding other uses of by-products whenever economically viable.
- Promoting the efficient use of resources, energy and fuel throughout the company's operations.

Co-operate with: -

- The communities in which we operate.
- The government, regulatory bodies and other interested parties with the shared vision of being a good and trusted neighbour.

### The company rules regarding the treatment of waste are:

1. If any waste products are produced on site then they will be removed from site by a licenced company.
2. Waste products shall be removed from the work area to bins provided by Phase Technology Ltd

### The company rules regarding the treatment of hazardous waste are:

All operatives shall, on suspecting the presence of waste deemed hazardous to health, immediately report it to the site supervisor and head office. No works shall be carried out within the affected area until the area is confirmed as clear.
